**LinkedIn:** [linkedin.com/in/gajendra-awasthi-np](https://linkedin.com/in/gajendra-awasthi-np)

## SUMMARY

---

A motivated Computer Science student and cybersecurity enthusiast with hands-on experience in ethical hacking, web development, and graphic design. Skilled in building secure, practical software solutions and leading community tech initiatives. Adept at combining technical problem-solving with creative design to deliver impactful projects, backed by 13+ certifications and 60+ Design and 3+ coding projects completed.

## WORK EXPERIENCE

---

### College Representative, Code For Change Far-West Jun 2026 - Present

- Leading tech education initiatives and championing community innovation activities.
- Connecting students with real-world tech opportunities and resources.
- Coordinating with regional chapters to organize joint tech awareness campaigns.

### Executive Member, NAST IT Club Oct 2025 - Present

- Organizing technical workshops for a growing student tech community.
- Supporting peer learning initiatives in programming and cybersecurity fundamentals.
- Mentored 15+ junior students in foundational programming and ethical hacking concepts.

### Freelance Graphic Designer Feb 2024 - Present

- Delivered logo design, social media creatives, and brand identity solutions for multiple clients.
- Managed end-to-end design projects independently, from concept through final delivery.
- Built a personal design portfolio showcasing 60+ completed client projects.

## EDUCATION

---

### Bachelor of Computer Applications 2024 - Present

*NAST College, Pokhara University*

- Building strong foundations in Data Structures, Algorithms, Database Management, and Software Engineering concepts.
- Gaining hands-on experience with Python, C, Linux, networking, and cybersecurity tools through practical projects.
- Actively exploring Artificial Intelligence, Machine Learning, and ethical hacking concepts to enhance technical skills.

### Higher Secondary School (+2) 2022 - 2024

*NAST Secondary School, NEB Board*

- Studied Computer Science and Management subjects with a focus on computer system fundamentals and technology concepts.
- Gained knowledge of computer hardware, software, operating systems, networking basics, and data management.
- Developed problem-solving skills through programming practice, academic activities, and practical assignments.

### School Education (SEE) 2006 - 2021

*Mount Saipal English School, SEE Board*

- Completed foundational education with a focus on mathematics, science, and computer-related subjects.
- Developed logical thinking, problem-solving abilities, and basic technical understanding.
- Built strong communication, teamwork, and analytical skills through academic activities.

## ADDITIONAL INFORMATION

---

- **Technical Skills:** HTML/CSS, JavaScript, C Programming, Java, Ethical Hacking Fundamentals, Network Security Basics, Adobe Photoshop, Figma, Canva, VS Code.
- **Languages:** English, Nepali, Hindi.
- **Certifications:** Cybersecurity Career Starter Certification (CCSC), TryHackMe Certificate, Udemy – Hack Network PCs, AI Skills for Students, Field Guide to Human-Centered Design, Canva Essentials Certificate, Scale Creative Campaigns Certificate, Computer Basics Online Certification, Hacktoberfest 2025.
- **Soft Skills:** Teamwork, Communication, Time Management, Critical Thinking.
- **Awards/Activities:** Actively participated as College Representative for “Code For Change Far West,” promoting STEM and tech education among students; Participated in Nepal Economic Olympiad 2024(Regional Round) contributed to the open-source community through Hacktoberfest 2025.
